

## Empower to unite

The Bundesvereinigung Logistik (BVL) e.V. invites you to submit your contributions to the BVL Supply Chain CX. The BVL Supply Chain CX is the new event for logistics and supply chain management, which will take place from 23 to 25 October 2024 at the Estrel Congress Center in Berlin. It offers you the opportunity to present your research and application results to a broad and qualified audience.

The motto of BVL Supply Chain CX 2024 is "Empower to unite". We are looking for contributions that show how logistics and supply chain management are mastering the challenges of the future, how they are using the potential of digitalization and artificial intelligence, how they are improving the sustainability and resilience of supply chains, how they are focusing on customer needs and customer satisfaction and how they are promoting cooperation and integration between supply chain partners.

The BVL Supply Chain CX includes the following topic tracks:

- ❑ Digitization of Supply Chains
- ❑ Artificial Intelligence and Machine Learning
- ❑ Sustainable Logistics
- ❑ Resilience and Agility
- ❑ Transformation of Logistics Service Providers
- ❑ Innovation Strategies in Logistics Technology
- ❑ Future of Organizations & People

You can submit your contributions in the form of practical, vendor-neutral presentations, workshops, table captains for themed tables, or panels. The contributions should have a clear connection to one of the tracks and provide added value for the participants of BVL Supply Chain CX.

Company size is not a selection criterion and submissions from large, medium-sized and small companies or research institutions are equally welcome. The concept group of BVL Supply Chain CX will play a crucial role in shaping the content of the CX and, therefore, will be actively involved in the selection of topics. The decision is based solely on content considerations.

We look forward to your contributions and your participation in BVL Supply Chain CX 2024!

### Deadline

The deadline for submissions is 29 February 2024, 23:59. Submissions should be sent by email to Konstanze Kröhn ([kroehn@bvl.de](mailto:kroehn@bvl.de)) and to the mailbox [inhalte-wissen@bvl.de](mailto:inhalte-wissen@bvl.de). Proposals received after 1 March 2024 can only be considered to a very limited extent with regard to event planning.

Your proposal will be recorded in the BVL office and discussed and selected in the concept group. Subsequently, coordination discussions will take place with potential speakers. Please understand that this selection process takes time. Therefore, we can only make a final statement at the end of May.
