New International Supply Chain Conference Programme Update Available

The updated programme for the upcoming **International Supply Chain Conference 2020** is now online! The conference takes place from **21st - 23rd October** under the theme **Sustainability in Action – Winning the Next Decade**. This year's conference will be hosted as a **hybrid event** – an on-site conference with guidelines and limited attendance, and at the same time, with online streaming services offered to those not attending in person. On top of that, you can get a taste of some of the content before the conference begins, free of charge and without having to travel to Berlin: **five Pre-Events** will be available in advance in the form of free webinars. The topic on **30th September** is **Sustainability in Transport Logistics**, while **Infrastructure for a Sustainable Business Location** is on the agenda on **1st October**. The next day, young logistics talents will be presenting their award-winning dissertations at the **Thesis Conference**. On **6th October** it's all about the **Circular Economy** which will be completely in English and features the Netherlands BVL Representative, Corine van der Sloot. And, last but not least, those who are interested can follow the **Grand Final – 2020 Science Award for SCM on 8th October**. The award itself will be presented on the first evening of the conference in Berlin.

New BVL Newsletter Format for International Members

BVL's international members now have access to a brand new newsletter format: the BVL Office proudly presents to you the very first issue of the **LOG.Mail International!** In addition to the existing quarterly **LOG.Letter International** newsletter, the **LOG.Mail International** aims to fill in the other **two months of each quarter** with regular updates from the association.

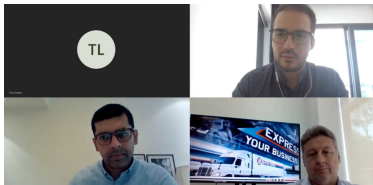

Optimism Ahead of the International Supply Chain Conference

"The findings for the Logistics Indicator based on the August 2020 survey suggest that we will probably see a V-shaped economic trend. And there is much to support to view that the logistics sector will experience a speedy recovery", says **Prof. Dr.-Ing. Thomas Wimmer, Chairman of the BVL Board**, in his commentary for the **Q3 Logistics Indicator**.
